Introduction

This publication is a product of the **Local Government Cultural Development Strategy**. The Strategy is the creation of a partnership between the Australian Local Government Association, the peak national body for Local Government, and the Australia Council, the Federal Government's arts funding and advisory body

Through the Agreement, both parties work collaboratively to advocate and support cultural development as an integrated aspect of Local Government planning and operations.

The publication is designed as a resource for local Councils, Universities, students of all ages and anyone with an interest in the arts generally. The work is the most up-to-date bibliography of its kind in this area and is the product of much work by Chuen-Chi Brace in the Australia Council corporate library and Janice Besch Minson from the Council's Strategy and Policy Division.

We hope that you will find this publication of value and ask that you to take the time to complete the survey form provided inside the back cover.

Contents
