Intelligent Transport Infrastructure and Local Government

Donna Wieland

General Manager – Transport Technology Futures

Department of Infrastructure and Regional Development

Tuesday 7 November 2017

Automated Vehicles

Connected Vehicles

Vehicle-to-Vehicle

- Collision warning
- Emergency Vehicle Proximity
- Hard braking warning
- Traffic conditions (congestion, road work, road surface information)

Vehicle-to-Infrastructure

- Speed limit notification
- Green light optimal speed advisory
- Intersection collision warning

Vehicle-to-Personal device

- Pedestrian collision warning

Smart Infrastructure

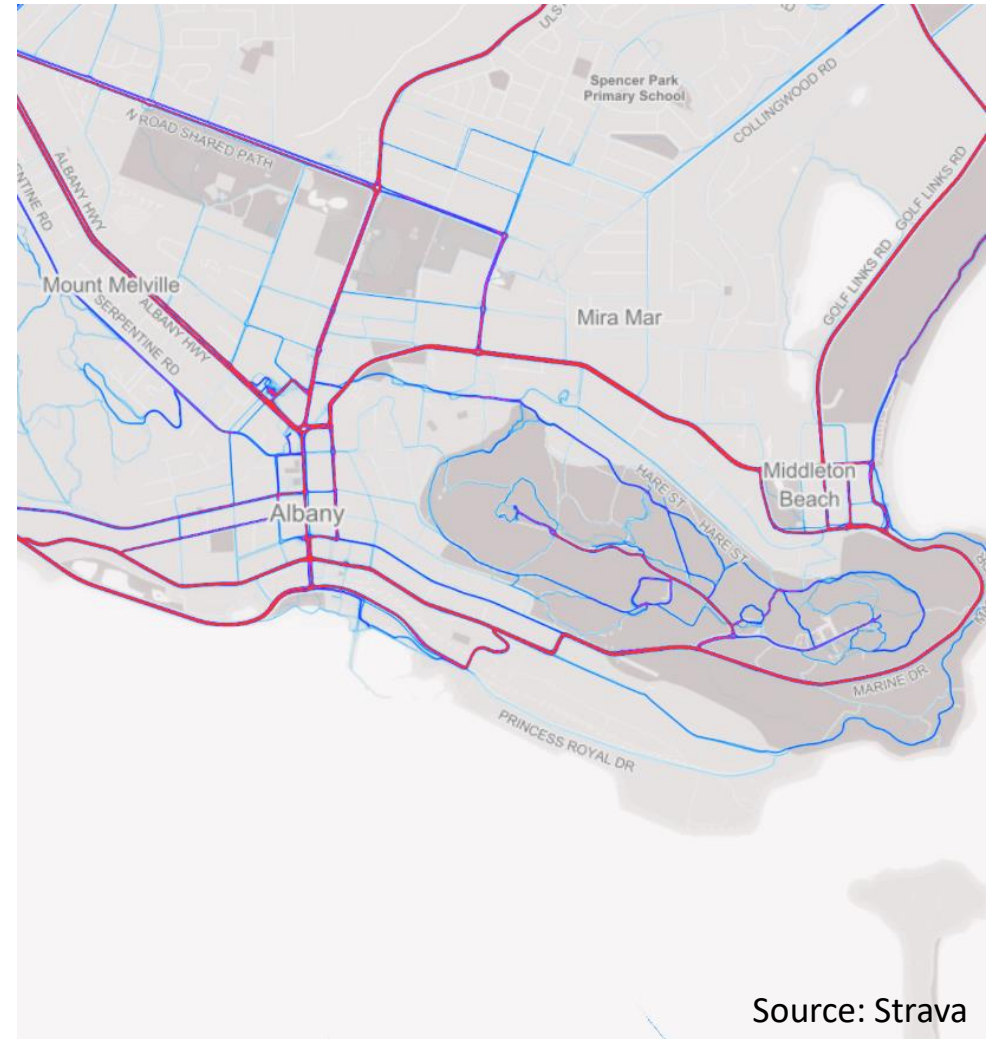

Mobility as a Service

Big Data

- 50 billion devices connected to the internet by 2020
- New sources of traffic data
- “Big data is what happened when the cost of storing information became less than the cost of making the decision to throw it away”
– George Dyson

A National Policy & Action Plan

- Agreed by national transport ministers in August 2016
- Seeks nationally consistent approach to emerging technologies
- Role for government: policy leadership, enabling, supportive regulation, facilitating trials
- 3-year collaborative action plan

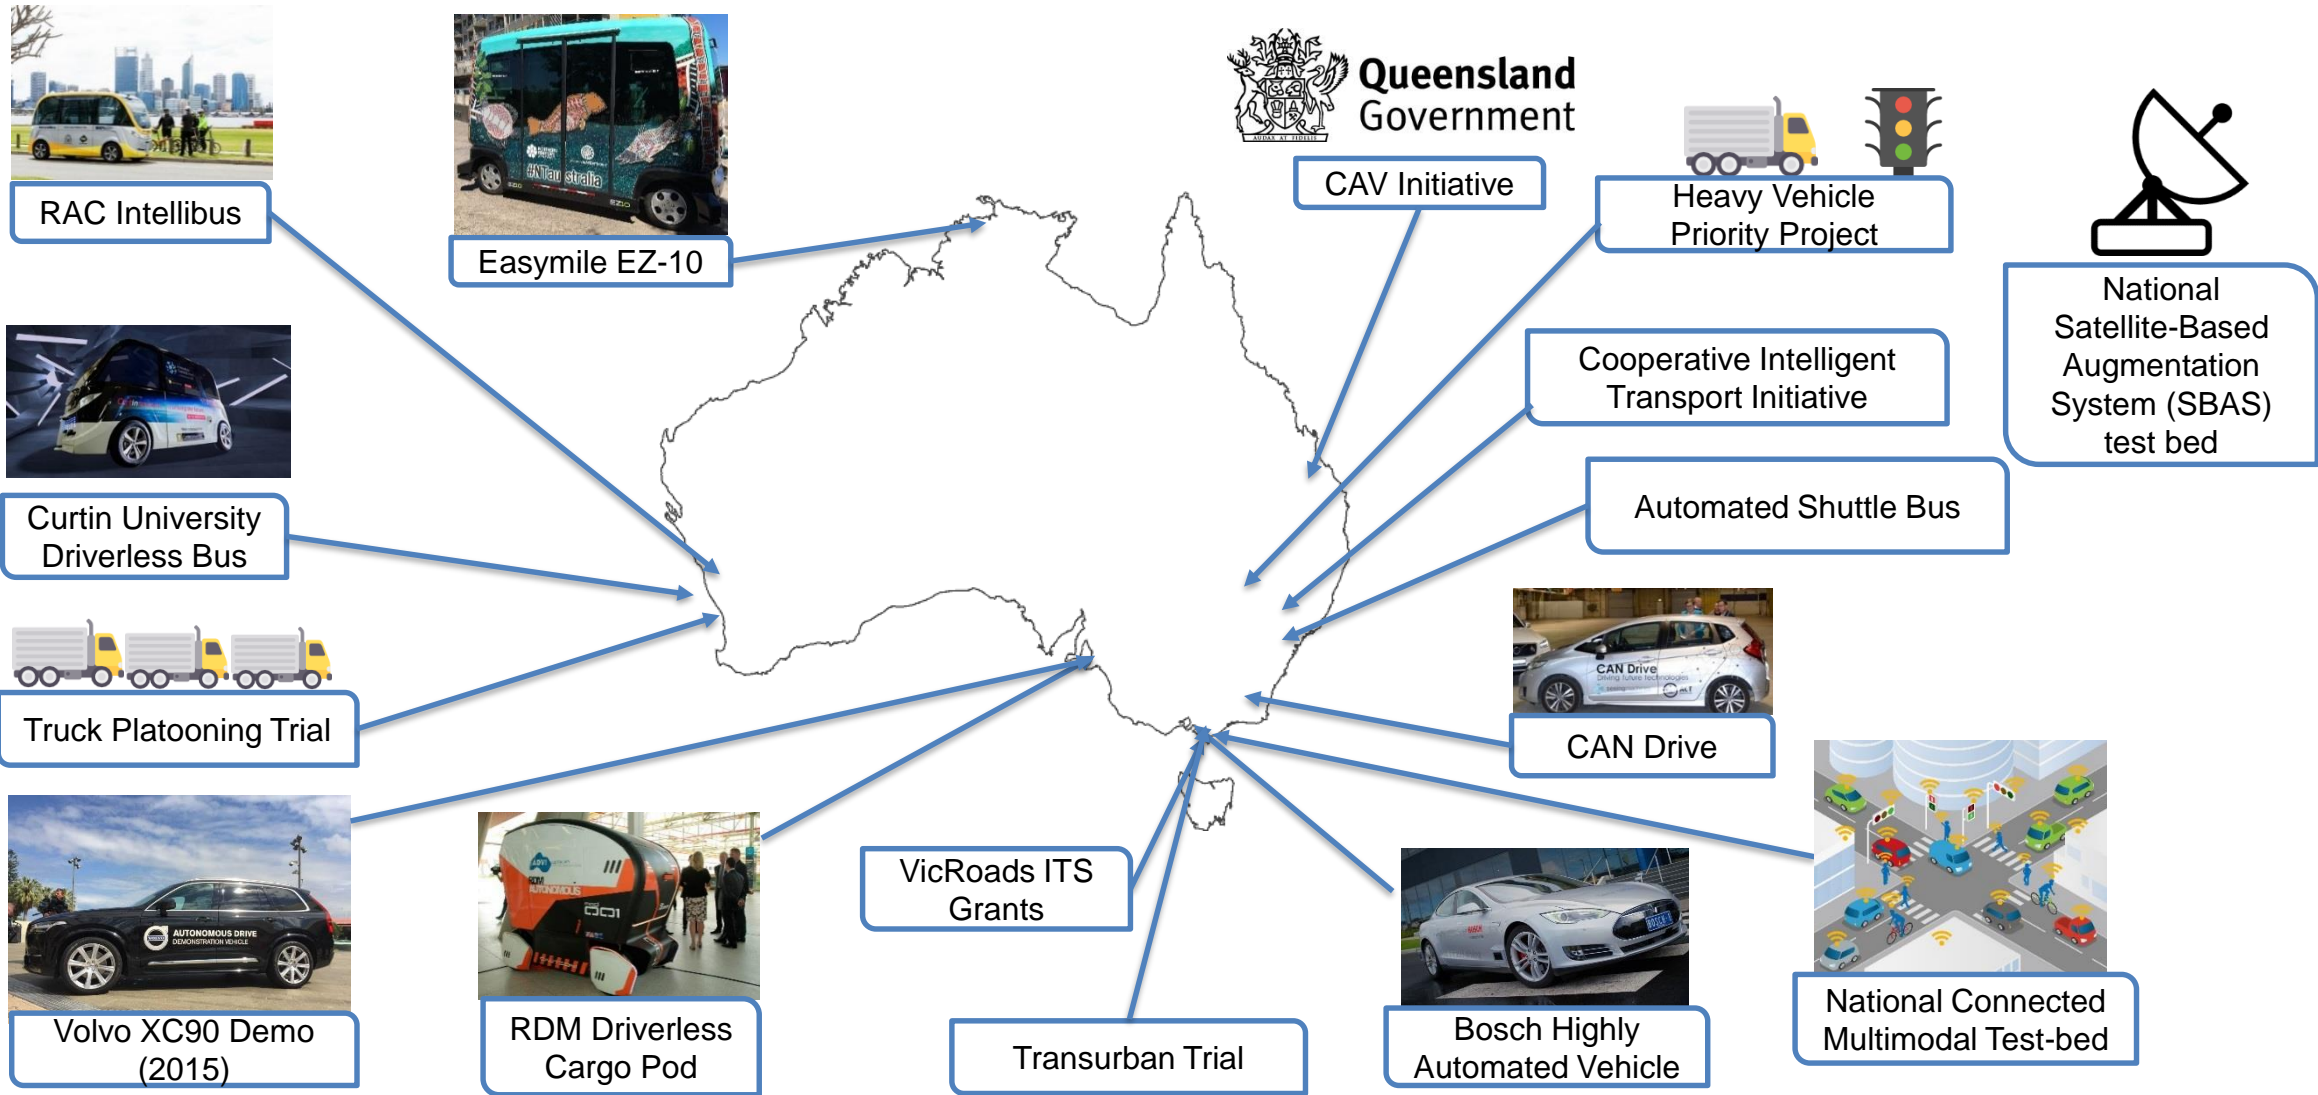

Automated Vehicle Reforms Underway

- National Trial Guidelines (May 2017)
- Safety regulation
- Cyber security
- Road rules
- Legislation which assumes a human driver
- Access to data
- Compulsory Third Party insurance review
- Small (footpath-based) automated vehicles

Getting Infrastructure Ready

Satellite-Based Augmentation System (SBAS)

- \$14 million two-year program to test next-generation instant, accurate and reliable positioning technology in Australia

Impacts on Local Government

- Road related revenue
- Urban sprawl and service provision
- Impacts on infrastructure and town planning
- Potential new infrastructure requirements (uncertain)

Social Issues

- House of Representatives Inquiry completed 11 September 2017
- Terms of reference: social impacts of automation (e.g. employment, access, legal issues, safety, general acceptance)
- Recommendations:
 - Trials that involve the public
 - Cyber security
 - People with a disability, older Australians and Regional Australia
 - Understanding employment impacts
 - Much more...

A challenge for further discussion

- Local government involvement is essential for solving local transport problems
- What partnerships and risks do we need to take to move forward?
